PEDIATRIC THERAPY

The news source of Jumping Jelly Beans Pediatric Therapy. Keeping you informed on the latest updates on our therapy staff, patients, and community.

SPILLING THE BEANS...Occupational and Speech Therapy

April is Occupational Therapy Month! Jumping Jelly Beans Pediatric Therapy takes pride in providing pediatric occupational therapy services across all four of our locations. Tailored for children aged from birth to 18 years, pediatric occupational therapy focuses on enhancing fine motor skills, activities of daily living, sensory development, play skills, and learning abilities crucial for academic achievement. Our dedicated occupational therapists are excited to assist your child in achieving success!

May brings Better Speech and Hearing Month! Jumping Jelly Beans Pediatric Therapy proudly provides pediatric speech therapy services at all four locations. Tailored for children from birth to 18 years old, speech therapy covers skills such as babbling, conversational turn-taking, feeding, fluency and swallowing. Our speech therapists at Jumping Jelly Beans assist children of all ages in safe swallowing, effective communication, and readiness for success at every life stage. For inquiries about your child's development, contact us at 870-919-0274 today!

SPILLING THE BEANS... Therapy At A Glance.

A few things our JJB kids might work on in occupational therapy:

1. Stages of grasping: raking, pincer grasp, mature tripod pencil grasp
2. Copying pre-writing strokes which helps foster appropriate hand writing skills
3. Stacking blocks
4. Coloring inside the lines
5. Tracking a toy with their eyes

A few things our JJB kids might work on in speech therapy:

1. Imitating functional words (I.e. “go” and “open”)
2. Taking turns vocalizing/talking with therapist
3. Pointing to named objects
4. Following Directions
5. Repeating important information (I.e. phone number or address)

SPILLING THE BEANS... At Home Activities

When it comes to targeting developmental growth at home, it can be hard to know where to start! A few things that can encourage your child’s speech and fine motor skills at home!

1. Stacking blocks
2. Completing puzzles
3. Reading books and naming pictures in the story
4. Singing nursery rhymes
5. Stacking rings
6. Encouraging new foods
7. Encouraging your child to feed themselves
8. Encourage coloring, tracing simple shapes on a paper and cutting them out
