PEDIATRIC THERAPY

The news source of Jumping Jelly Beans Pediatric Therapy. Keeping you informed on the latest updates on our therapy staff, patients, and community.

SPILLING THE BEANS... ON OUR NEW CLINIC IN BLYTHEVILLE!

Jumping Jelly Beans Pediatric Therapy is thrilled to announce the opening of our second satellite outpatient clinic in Blytheville, Arkansas. Jumping Jelly Beans-Blytheville is located in the old Lane Furniture building at 831 East Main Street in Blytheville.

For the past 4 years, we have been serving the children of Mississippi County and surrounding areas in homes, daycares, and schools. Our new satellite clinic will allow us to even better serve children, birth to 21, by offering physical, occupational, and speech therapy in an outpatient clinic setting.

The new space will allow our therapists to provide a more customized plan of care by using adaptive equipment and therapy tools that are unable to be used in the home, daycare, or school setting due to size or portability constraints. Jumping Jelly Beans-Blytheville will have the full administrative support of our Jonesboro office allowing our Blytheville therapists to focus on providing the best therapy possible.

We are excited to be a part of this amazing community and look forward to serving Mississippi County.

SPILLING THE BEANS...ON OUR THERAPY STAFF

Callie Brown is a Physical Therapist and a Mississippi County native. Callie joined the Jumping Jelly Beans Pediatric therapy team in August 2017 and currently provides physical therapy services for JJB to children in Mississippi and Craighead counties.

Callie attended Arkansas State University where she graduated with her Bachelor of Science in Biology in 2014. She went on to complete her Doctorate of Physical Therapy in 2017 from Arkansas State University.

Callie chose to work in pediatrics because of the opportunity to see continuous progress from week to week and also celebrate each milestone with our children and their families.

Callie feels it is very rewarding to be able to get to know these kiddos and their families and serve as a bridge between a sometimes-scary diagnosis and the potential possible in each child.

Callie and her husband Chris live in Blytheville. She enjoys spending time with friends and family, being a part of their church family, traveling, and hanging out with their dogs, Jax and Delta.

SPILLING THE BEANS...SUMMER THERAPY

With summer fast approaching, schools and head starts are finishing up another school year.

Summer can be a time for a kid to enjoy a break from school but also continue to make progress in their therapy.

If you have or know of a child who receives physical, occupational, or speech therapy at a school, preschool, or Head Start and would like their therapy services uninterrupted please check out our summer therapy options.

We can serve your child at their summer location or at any of our 3 outpatient clinics (Jonesboro, Newport, or Blytheville). If you are interested, please call our office at 870-919-0274 for more information.
